

On 10/28/2010 I filed a 24 hour report for Rogelio Morales and John Faulk. I mistakenly believed that they could be on the same report so I filed a total of \$2,879.45 for Premium Graphicx and listed both Rogelio Morales and John Faulk in the campaign box. I didn't realize that only the shaded name would register. As a result, the full \$2,879.45 was credited to the Morales Campaign. I subsequently tried to correct my error and attribute half of that amount to Faulk, or \$1,439.73 to John Faulk but was in non-compliance with the 24 hour notice. There was only one independent expenditure for Premium Graphicx for Faulk and Morales totalling \$2,879.45. This was reported, though not properly allocated on 10/27.
